Project Overview

- MAGOR is a web-based audio and video transcription system that converts recordings into text
- **Existing Problem:**
 - Although functional, components remain incomplete and require refinement
- **Proposed Solution:**
 - Improve robustness, usability, and AI-driven recording analysis

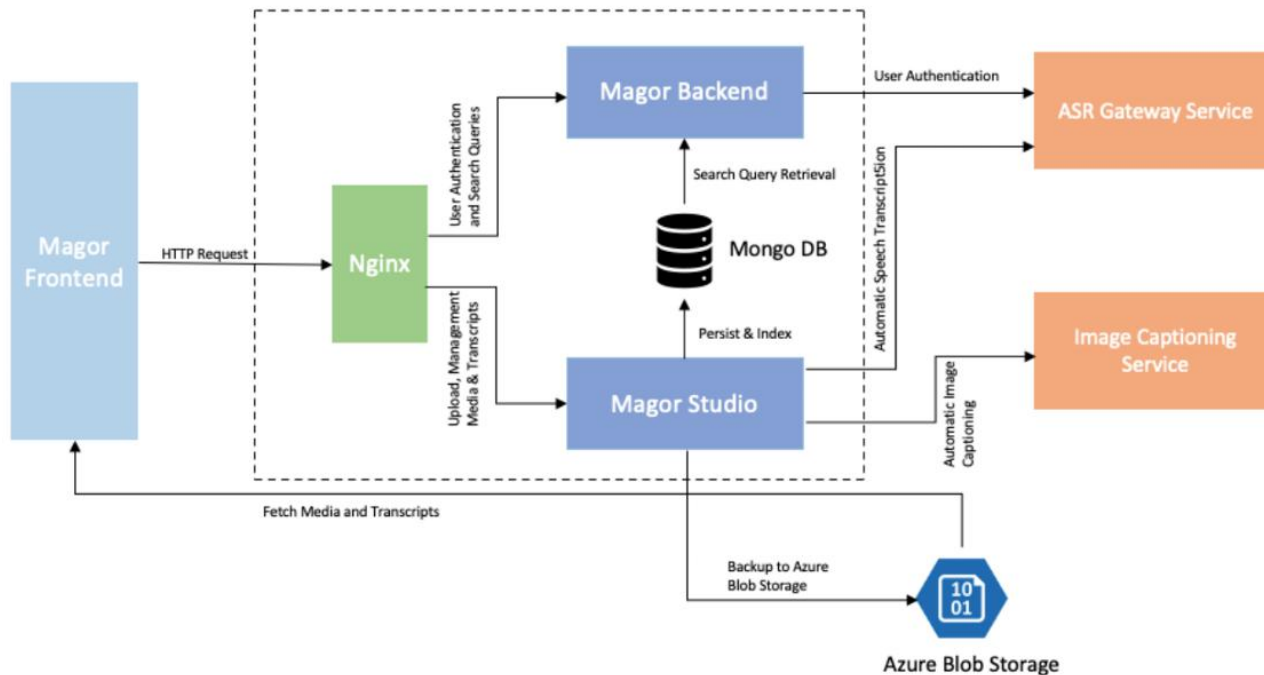

Project Objectives

The primary objectives of this project are:

- Fix system bugs and restore functionality
- Improve usability and user experience
- Enhance maintainability and scalability
- Add AI features to existing pages

Systems Overview

Source: Huang (2021)

Agenda

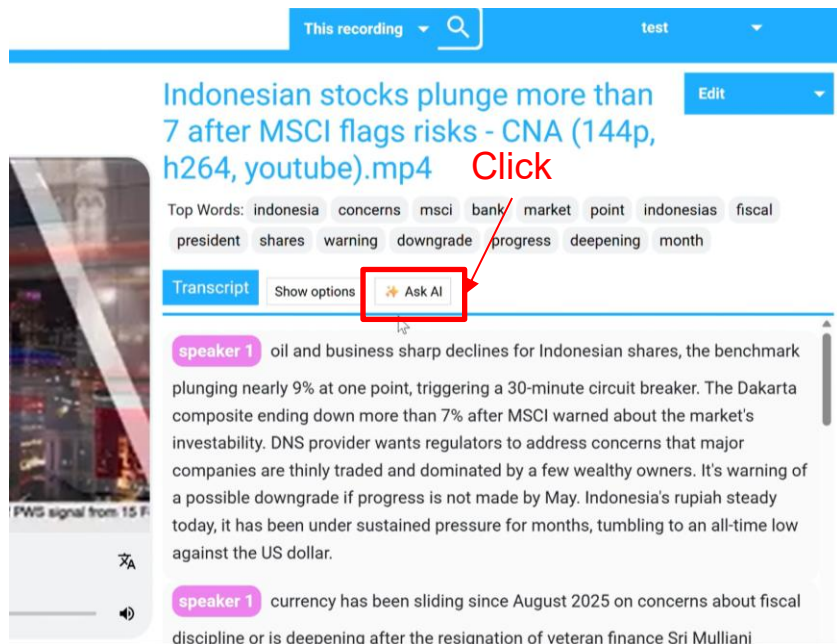

Work Done Over The Weeks:

- Ask AI Summary Generation Improvements:
 - **Improved Summary UI:**
 - Redesigned summary generation to display side-by-side with the recording
 - Added a copy button to copy generated summary text
 - **Custom Summary Generation:**
 - Added Custom summary option to specify preferred summary formats
 - **Enhanced Default Summary Prompt:**
 - Refined the default prompt to produce summaries more closely aligned with the YouTube Ask AI format (with timestamps and in concise bullet points)
- Improved Space Utilization on the Recording Page (***WIP***)

Task 1 (Improved Summary UI)

- Previous “Ask AI” UI:

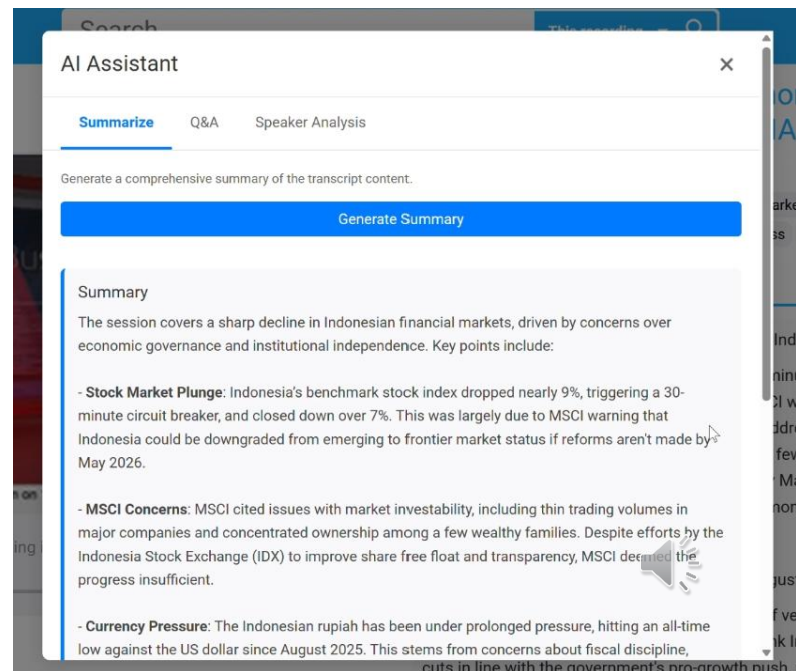

The screenshot shows a web interface with a blue header bar containing 'This recording' and a search icon. Below the header, the main title is 'Indonesian stocks plunge more than 7 after MSCI flags risks - CNA (144p, h264, youtube).mp4'. A red arrow points to the 'Ask AI' button, which is highlighted with a red box and the word 'Click' in red text. The interface also displays 'Top Words' and a 'Transcript' section with speaker 1's text.

Summary

The session covers a sharp decline in Indonesian financial markets, driven by concerns over economic governance and institutional independence. Key points include:

- **Stock Market Plunge:** Indonesia's benchmark stock index dropped nearly 9%, triggering a 30-minute circuit breaker, and closed down over 7%. This was largely due to MSCI warning that Indonesia could be downgraded from emerging to frontier market status if reforms aren't made by May 2026.
- **MSCI Concerns:** MSCI cited issues with market instability, including thin trading volumes in major companies and concentrated ownership among a few wealthy families. Despite efforts by the Indonesia Stock Exchange (IDX) to improve share free float and transparency, MSCI deemed the progress insufficient.
- **Currency Pressure:** The Indonesian rupiah has been under prolonged pressure, hitting an all-time low against the US dollar since August 2025. This stems from concerns about fiscal discipline, cuts in line with the government's pro-growth push.

Task 1 (Improved Summary UI)

- Updated “Ask AI” UI:

The screenshot displays the Magor AI interface. At the top, a blue header bar contains the 'Magor' logo, a search bar, and a 'This recording' dropdown menu. Below the header, the video player shows a man speaking at a podium. To the right of the video player, the title 'Original_recording5.mp4' is displayed, along with an 'Edit' button. Below the title, a list of 'Top Words' is shown: rolled, resources, sustainable, development, severely, challenged, countries, struggle, ends, meet, navigate. A red arrow points to a new 'Copy' button (represented by a document icon) located in the summary section. The summary section is titled 'Summary' and contains text about the challenges many countries face in achieving sustainable development. Below the summary, there is a 'Generate New Summary' button.

Summary

Here is a **summary of the podcast session** titled *"Deep Dive with Steven and Michael Tiffany"* on the political developments in Singapore, focusing on the removal of Pritam Singh as Leader of the Opposition:

Main Topic: Removal of Pritam Singh as Leader of the Opposition

- **Context:** Prime Minister Lawrence Wong has removed Workers' Party (WP) chief Pritam Singh from his role as **Leader of the Opposition (LO)** following his **conviction for lying to Parliament's Committee of Privileges**.
- The conviction relates to Singh failing to disclose, in a timely manner, that former WP MP Raeesah Khan had lied in Parliament about a sexual assault case, and that he had advised her

Key Discussion Points

1. Workers' Party's Likely Response

- The WP has stated it will **deliberate** on whether to nominate a new LO in response to PM Wong's invitation.
- **Eugene Tan (SMU Associate Professor)** believes the WP is **unlikely to accept** the invitation, viewing the move as politically motivated and part of a "narrative of victimhood" under a dominant-party system.
- **Dr. Felix Tan (Independent observer)** argues the WP **should accept** the role to strengthen opposition presence, gain visibility, and help institutionalize the LO position for long-term democratic development.

2. Significance of the Leader of the Opposition Role

- The LO receives:
- **Extra speaking time** in Parliament.
- **First right of reply** to government statements.
- **Additional resources and visibility.**

```
const requestPayload = {
  taskType: "SUM",
  dialogue: transcript,
  userPrompt: userPrompt | "Summarize the session.",
  // temperature: 0.5,
  // top_p: 0.8,
  // repetition_penalty: 1.05
};
```

Prompt used to LLM

Conclusion

- The removal of Pritam Singh marks a **significant moment in Singapore's evolving political landscape**.
- The WP now faces a strategic choice: **reject the LO role to maintain solidarity and narrative, or accept it to strengthen opposition infrastructure**.
- While Singh's political future within the party appears secure for now, the broader debate underscores **tensions between political accountability and democratic maturity** in Singapore.
- As both guests and hosts agree: **"Time will tell"** how this episode shapes the future of opposition politics in Singapore.

Final Note

The episode ends with a reflection on the importance of **integrity, accountability, and balanced representation** in Parliament, and a reminder that public trust in political institutions remains central to Singapore's governance.
